## **VIVA GOLD ANNOUNCES PRIVATE PLACEMENT**

**VANCOUVER, BC – September 13, 2018** – Viva Gold Corp. (TSX-Venture: **VAU**; OTCBB: **VAUCF**) (the “**Company**” or “**Viva**”) is pleased to announce its intention to complete a non-brokered private placement (the “**Offering**”) of up to 2,750,000 units (the “**Units**”) at a price of CDN\$0.37 per Unit for gross proceeds of up to CDN\$1,017,500. Each Unit will consist of one common share in the capital of the Company (a “**Share**”) and one whole transferable common share purchase warrant (each whole common share purchase warrant, a “**Warrant**”). Each whole Warrant will be exercisable to acquire one Share at an exercise price of CDN\$0.47 per Share for a period of 24 months from the date of issuance. The Company may pay finder’s fees on a portion of the Offering, subject to compliance with the policies of the TSX Venture Exchange and applicable securities legislation.

Proceeds from the offering will be used to complete the remaining 17-drill holes, of the 28-hole RC drill program first announced in May of 2018 at Viva’s Tonopah Gold Project, located near Tonopah Nevada. Strong gold intercepts over good lengths in the first 11-holes of the drill program supports further investment in identifying possible extensions to known gold mineralization by completing the remaining 17- drill holes in this program. Estimated all-in cost for the drill program is approximately US\$400,000. Additional work shall include gold recovery characterization and testwork at an estimated cost of up to US\$100,000. Remaining funds will be utilized for working capital and general corporate purposes.

The Offering is available to investors in reliance on exemptions from the prospectus requirement set out in National Instrument 45-106 *Prospectus Exemptions* and BC Instrument 45-536 *Exemption from prospectus requirement for certain distributions through an investment dealer* and the corresponding blanket orders and rules in the other Canadian jurisdictions that have adopted the same or a similar exemption from the prospectus requirement (collectively, the “**Investment Dealer Exemption**”). The Investment Dealer Exemption is available in each of Alberta, British Columbia, Saskatchewan, Manitoba and New Brunswick to a person or company who has obtained advice regarding the suitability of the investment from a person registered as an investment dealer in such person’s or company’s jurisdiction. As required by the Investment Dealer Exemption, the Company confirms there is no material fact or material change relating to the Company that has not been generally disclosed.

Certain insiders of the Company may acquire Units in the Offering. Any participation by insiders in the Private Placement would constitute a “related party transaction” as defined under Multilateral Instrument 61-101 *Protection of Minority Security Holders in Special Transactions* (“**MI 61-101**”). However, the Company expects such participation would be exempt from the formal valuation and minority shareholder approval requirements of MI 61-101 as the fair market value of the Units subscribed for by the insiders,

nor the consideration for the Units paid by such insiders, would exceed 25% of the Company's market capitalization.

Closing of the Offering is subject to approval of the TSX Venture Exchange.

The securities issued under the Offering, and any Shares that may be issuable on exercise of any such securities, will be subject to a statutory hold period expiring four months and one day from the date of issuance of such securities. Additional resale restrictions and legends may apply in the United States and other jurisdictions.
